

Welcome to Preschool A

There are many opportunities to learn about the natural environment – the children are encouraged to help with the plants and gardens that are a part of their classrooms and yards.

The children are encouraged to be independent and responsible – so proud of their accomplishments when serving themselves at the dining room table.

Families are made to feel welcome and included in the program. Parents are encouraged to spend time in the program – sharing books on the couch, joining the children for snacks and participating in activities.

The program offers a wide variety of art mediums for children to explore. The children are encouraged to express themselves, and to share their ideas and creativity.

Classroom pets including a bunny and goldfish are part of the family. The children learn to take care of them and work as a team making a great home for the animals.
