

Welcome to the School Age Program

Our School Age Program offers a safe respectful, peaceful and stimulating environment where children, 6 – 10 years of age can grow and develop according to their own needs and abilities. In a home like setting, the children can direct their own learning. The Early Childhood Educators are present to guide, encourage support and facilitate the their learning. Activities with others help to develop social skills, cooperation, participation, communication, validation – support, good sport, & team work.

Board games: offer children many learning opportunities. Though playing games children learn turn taking, good sportsmanship, mathematical skills, & strategies.

Art activities: provide children with an avenue to be creative using a variety of materials.

Homework: A designated homework space is available for students to work.

Active Games: offer opportunities to develop large muscle skills, good sportsmanship, learning rules of the game, to develop coordination and an opportunity to socialize.

Sensory Activities: provide opportunity for experimenting, discovering, refining observational skill, measuring, and weighing.

Special Events: Visitors, field trips, celebrations, family involvement and community projects.
